Dear beverage lover,

The Spanish Embassy, through its Economic and Commercial Office is pleased to celebrate the 7th edition of the “Wines from Spain: Spirits of Spain” Exhibition, after two years of absence due to the situation generated by the coronavirus pandemic.

Since 2015, this Office has been organizing successfully wine tasting for professionals in the hospitality industry, with more than 80 professionals attending each year.

This year, the trade show will be offering more than 70 different products, including wine, beer, vermouth, and other alcoholic beverages from Spain, with the collaboration of 3 Ghanaian importers and 8 Spanish wineries and beverage companies.

Along with the commercial exhibition, the Spirits of Spain Exhibition 2022 will develop a program of activities divided in two sessions that will enhance the educational and sensory experiences linked to wine and other beverages. When it comes to learning about Spanish wine and beverages, it is important to get to know the different grape varieties and other products that are grown in Spain as well as their geographic distribution.

Spain is currently the world's third-largest wine-producing country, as well as the country with the largest vineyard area in the world. It is also the largest wine exporter in terms of volume globally.

Finally, I would sincerely like to thank all of you who are part of the wine and beverage community in Ghana for your dedicated support and passion for Spanish products. It is your cooperation with Spain and your valued appreciation of Spanish products that has made it possible. I am highly thankful to the Ghanaian importers, press, wine shops, restaurants, supermarkets, and everyone that promotes Spanish beverages in Ghana with their passion and dedication.

Yours faithfully,

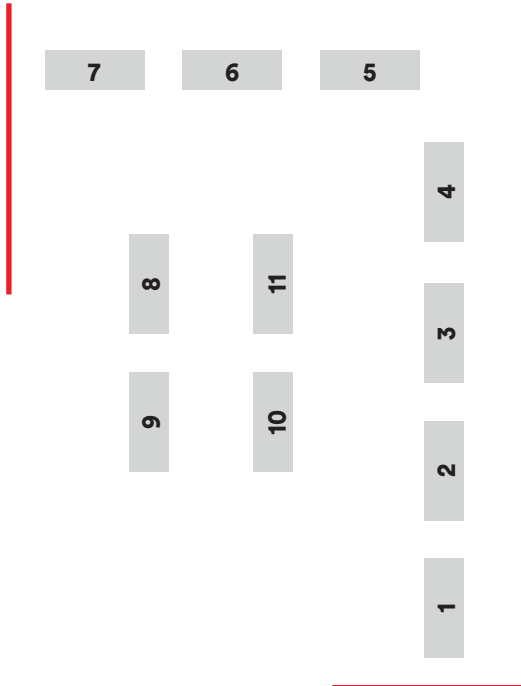

Miguel Casero Serrano

Head of the Economic and Commercial Office – Spanish Embassy

Paraje de la Aragona, Carretera de Fuente Alamo,

S/N, 30520 Jumilla, Murcia

More than a century has passed with Viñas Familia Gil since they bottled their first wine. They grow with the incorporation of small wineries from the main wine producing regions of Spain. They are also a family. Thus, they unite, in a single brand, a selection of wines from different origins, yet connected by the spirit of quality and tradition. Different characteristics of native grapes, joined by the same family roots from where the first vines emerged.

LIST OF WINES

JUAN GIL BLANCO MOSCATEL DO JUMILLA

C. Cabo Noval, 2, 26009 Logroño, La Rioja, Spain

Bodegas Franco-Españolas was founded in 1890 as a partnership between France and Spain at a critical moment in Rioja, when the French came to the region in an attempt to replace their vineyards devastated by the wine blight, phylloxera.

Franco-Españolas is one of the great wineries in La Rioja, with a privileged location, on the banks of the Ebro River. With more than 125 years of history it occupies a foremost position in the world of winemaking.

In 2012, the images of the Diamante and Rioja Bordón wines were overhauled and in 2013 the winery received the 'The Best of' award for Wine Tourism in the 'Innovative Experiences' category.

Bodega Sommos is the most contemporary winery in Denominación de Origen Protegida Somontano. Sommos produces a range of elegant, honest wines with the grapes grown in Somontano, a small wine region with a huge diversity of soils, microclimates, and grape varieties.

The winery is an amazing building inspired on Cotiella, one of the most famous Pyrenean mountains. Sommos is considered by the prestigious magazine The Drinks Business as “one of top 10 architectural wonders of the wine world”, and it’s not just due to its beauty, but also because of its usefulness for the production of unique wines.

Gravity is used during the whole winemaking process because the winery is built 30 meters underground. Here we will find some of the latest techniques that help the winemakers to reach their goals with a great accuracy. As a result, each wine expresses the identity of every single vineyard plot. We recommend you watch this video to get an idea about this unbelievable winery.

LIST OF WINES

Bodegas Yuntero is a winery located in the very heart of La Mancha (Spain), founded in 1954 that now has more than 10.000 hectares of own vineyards and a capacity of more than 145.000.000 litres. Besides, our production capacity is quite high too; recently, there have been made several investments in new bottling lines that reach +10.000 bottles/hour with intelligent foreign matter detection systems and intelligent scales. All this makes us the second biggest winery in Spain.

Bodegas Yuntero sells wines in more than 20 countries and have presence in the main countries of the European Union as well as in 'third countries' such as United Kingdom, USA, Canada, Brazil, China, or Japan.

Grandes Vinos y Viñedos, was established in 1997 thanks to the union of the more than 700 families of winegrowers that make up the winery. Sharing their hard work and know-how, to create wines that combine tradition and innovation, and have no borders.

Cariñena is the only land in the world that gives its name to a variety of grape. A territory that treasures old vineyards at different altitudes, soil with ancient stones and a strong wind, El Cierzo, that gives personality to the wine.
