We are delighted to present the eighth edition of the Wines from Spain Awards Guide. It has been three years since our last competition and, in that time, the vineyards and wineries of Spain have continued to move forward and innovate. We are excited to lift the curtain on the recent evolution of Spanish winemaking and reveal the range of outstanding Spanish wines uncovered by our expert judging panel for 2022.

Alongside competition Chair Tim Atkin MW, judges picked their stand-out wines of the competition. Many of the famous styles and regions that built Spain's reputation worldwide have found their place on the list. There is also an incredible array of native varietals and innovative styles from lesser-known regions and producers among this year's winning wines.

We hope you enjoy tasting the very best of Spain: vibrant wines with character and a sense of place, wines with wow-factor and personality, wines that will delight at the best tables and among friends.

¡Salud!
Wines from Spain

FWS  Wines from Spain | **AWARDS** 

2022 Wines from Spain Awards

I never need an excuse to taste some of Spain's best wines, but the opportunity was especially welcome after a pandemic-related break of two years. Few things are more enjoyable than assessing a range of reds, whites, rosados, fizzes and fortifieds from what is currently the most exciting wine-producing country in Europe.

The choice of the best wines is entirely at the discretion of the judges. There are no quotas. So, when the final selection of exactly 100 bottles was revealed, it was a pleasure to see the diverse styles we'd picked. All in all, the wines came from 34 different wine regions, covering the length and breadth of Spain. Talking of Spain, there was even one sweet red Monastrell that is sold as a catch-all Vino de Mesa.

It's sometimes said that four appellations, all beginning with an R, have a huge influence on the modern Spanish wine scene. That quartet – Rioja, Ribera, Rueda and Rías Baixas – was certainly represented on the winners' podium, but I think it's significant that 57% of the whites and 37% of the reds were from other DOs. Let's hear it for, among other places, Almansa, Cariñena, Cebreiros, Conca de Barberá, Costers del Segre, Empordà, Mallorca, Manchuela, Monterrei, Ribeiro and Valencia. Let's also applaud the less familiar grapes in our selection: Albarín, Bruñal, Forcada and Prieto Picudo to name only four. It's not all about Tempranillo and Verdejo, folks, however important those varieties might be.

Spain's other trump card is value for money. Looking down the list of wines, it's noticeable how many of them retail below £20. Few countries can compete with Spain when it comes to providing flavour and complexity for your euros, dollars or pounds.

I hope you'll find the time to taste most or even all of the wines on show today. More importantly, I hope you enjoy sampling them as much as we did choosing them.
