VAYK WINES EAD

VAYK WINES imports and distributes to the Bulgarian market more than two thousand different wines, high quality spirits and soft drinks of various price categories. The logistic organization of the company includes importing, own HoReCa — distribution, direct “door-to-door” sales, VIP sales, an exclusive chain of VINELLO shops, as well as “off-trade” distribution. Along with our own distribution, we also enjoy a successful partnership with other leading distributors in the country

And so, born with inspiration, today VAYK WINES is a label in the world of wine — an importer, distributor and retailer. Our wines delight the hearts of wine lovers and enrich the wine lists of a small pizza place to those of fine-dine restaurants in the country. We are honoured, when daily so many people in Bulgaria, fill their souls over a glass of wine from our portfolio, while sharing great moments with their friends and family. We are happy to work with exceptionally reputable houses and wineries, which have proven themselves in their own countries and have deserved the right to pass on a part of their culture and traditions all over the world. We are especially proud with our Spanish portfolio - embedding our hearts and souls in it, we are happy to realize our involvement in bringing an amazing part of the Spanish sun, soil, soul and passion to Bulgaria!
