Our cellar is placed at one of the most prestigious Spanish Designation of Origin, Ribera del Duero.

The society was constituted on May 2003 to create and buy high quality wines, specially the reserva and crianza.”

“In 2013, we began to work in a unique environment where our indigenous forest and the traditional agricultural activities in our area have been living together and thriving for centuries. We were very keen to preserve and make viable this natural and human environment which is so typical of our part of the world.

Our unique landscape of mediterranean forest and gentle slopes growing vines and olive trees happens to be one of Rioja's largest domains, and is located in the far north of the Ocon Valley, some 25 km (16 miles) southeast from Logroño.”
