Dominio de Eguren was founded by the fourth generation of the Eguren family (Sierra Cantabria), with the vision of offering high-quality inexpensive wines to all audiences.

The philosophy of the project is the selection and vinification of the highest quality grapes from controlled vineyards in Manchuela (Castilla-la-Mancha). These vines of Tempranillo, Bobal, Viura (Macabeo), and Airén, planted on trellis, were selected by the family for their advanced age, poor soils, and unique microclimate. A significant percentage of the production is also sourced from their young vineyards in Rioja and/or Toro, planted with old clone massal selection Tempranillo and Tinta de Toro, before the vines are deemed old enough to be used for the estate bottled wines.

"Our wines are youthful, fresh, and affordable— just like the ones our grandparents used to enjoy and share."

The Spanish winery Vallformosa is one of the main producers of cava (traditional method) with more than 150 years of experience and a strong focus on quality and sustainability. Vallformosa, in addition to cava, also has a wide range of products such as still wines, sparkling wines, non-low alcohol sparkling wines, wine in can, vermouth, etc. All products are Vegan certified and the 2023 harvest is 60% organic.

A leading example of revival and adaptation to modern times, Vallformosa does not rely on its own vineyard, preferring to partner with 400 wine-growing families who meticulously nourish their vines year-round with the help of a technical team that works to ensure the best quality fruits.

The winery has more than 20 years of experience working in Asia, and we are looking forward to starting to work with Singapore.

Vallformosa is the first Spanish BCorp winery, and the only one producing cava.

Muriel Wines was founded in 1926 by José Murúa in Elciego, Rioja Alavesa, and nowadays the 3rd generation is involved in the business. We are producers of a diversified portfolio:

Bodegas Luis Alegre (DOCa Rioja) – Our winery in Rioja Alavesa was established in 1968 and it's located in Laguardia. We produced Single Vineyards wines from very special terroirs. FINCA LA REÑANA planted in 1920 and at 620 m of altitude and PARCELA N°5 planted in 1945 in the bank of a natural saline lake in a natural Biotope

Bodegas Pazo Cilleiro (DO Rias Baixas) – Our winery in Meis, the heart of Salnés Valley. We produce high quality and competitive 100% Albariño wines with different profiles, that bring together the values of the great wines of the Rías Baixas: the bold freshness, the richness of nuances, the energy of a unique place.

Bodegas Valdecuriel (DO Ribera del Duero) – Our boutique winery in the region where we produce wines very fresh, intense and with free characters.

- Avelino Vegas Aureo - D.O. Ribera del Duero
- Avelino Vegas 100 Aniversario - D.O. Ribera del Duero

Avelino Vegas is a family-owned company founded in 1950. Nowadays we own three consolidated wineries where we elaborate wines from principal wine growing areas in Spain: Ribera del Duero and Rueda D.O.

In D.O. Rueda, Avelino Vegas has one of the most important assets in the quality of its Verdejo grapes from old vines, harvested in the province of Segovia, which wines have earned an outstanding recognition in international contest.

In Ribera del Duero the winery controls century-old, low-yielding vineyards which soils have a chalky and sandy component, these, together with the altitude (between 800 and 900 m), are quality factors for Tempranillo grapes of extraordinary quality to elaborate wines aromatic, fruity, fine and elegant.

70% of the production goes to the national market and 30% to export to about 30 countries. Our hallmark is the excellent quality/price ratio of our wines and the continuous support to our customers.

- Gran RODMA – Ribera del Duero

Finca Rodma is a family project, that respect the land and the tradition, and the most important thing is the passion we put into everything we do. We located at the best area of Ribera del Duero named "Golden Mile".

The winery owns 22 tempranillo hectares; and we have chosen to place our winery in the centre of our vineyards, to have more control over the quality and each process of our wines. We limit wine production by giving priority to exclusivity and the artisanal process, thus producing an elegant product, with character and with its own personality.

We also choose to do things with enthusiasm, within a family project that overflows with passion and attachment to an extraordinary land.

Because at Finca Rodma, first of all, we choose to be different from others.

Bodegas Resalte is a project that was born over 20 years ago, marked by the highest standards to produce wines with a distinctive identity within the Ribera del Duero Designation of Origin.

Resalte was born with the philosophy of making signature wines, in which each vineyard, winemaking and ageing is specifically designed. A marked character in which the terroir and the ageing are combined to improve the characteristics of the native grapes of Ribera del Duero: Tempranillo for the elaboration of red wine and, Albillo Mayor for white wine. Bodegas Resalte is now one of the top Spanish wines with highest accolades from international critics, including being chosen as one of the 100 best wines in the world five times, among other numerous recognitions

Cantariña, a small winery in Bierzo, Spain, was born when five siblings took up arms against the pass of time. At the start of this project, only a handful of dusty bottles remained of our family's great winemaking tradition. That is, dusty bottles, sweet September memories, and two family jewels: the vineyards of Los Pinos and Valdeobispo in Villafraña del Bierzo, León, Spain.

With an eye on the past and our conscience in the present, we the Ysart Alvarez de Toledo siblings want to revisit our roots in viticulture and the making of good wine. Our family winery spins around those century old vineyards and our love for the land. We organically farm them to produce the best grapes possible that allow us to make low intervention wines. We aim for drinkability and fruit in wines that encapsulate landscapes in bottles.

Bodegas CARODORUM is a small, family owned, artisan winery situated in the prestigious "pago" of La Cascajera, in the heart of the region of TORO. Quite simply, it was founded on the family's passion for wine on the 2004.

Each bottle of Carodorum joins family values, small scale production advantages, modern wine making technology and traditional grape growing techniques amongst a backdrop of the TINTA DE TORO variety. This variety is the region's point of difference and point of inspiration for the family at Carodorum.

State-of-the-art technology is used to preserve the characteristics of the TINTA DE TORO (Tempranillo) variety. Fermentation takes place in temperature controlled stainless tanks while a wide array of premium oak barrels are used for ageing. The wines are aged for a minimum of 6 months to add the necessary structure and depth.

IN LAR DE MAÍA, WE JOIN TRADITION, FAMILY AND PASSION FOR OUR LAND

We are a family winery producing quality wines in a traditional way, taking care of each part of the process carefully to get the best of the results. We make wines that leave a mark.

Our experience in the wine business working for other wineries and our passion for a job well done made us to take the decision of starting our own dream. In 2015, Lar de Maía was born. We were very interested in making wines with personality, from the inside of the bottle, the most important part, to the outside. This is what the consumer sees first before taking the decision to buy the bottle. Our philosophy is making natural wines, without additives, with character so when you taste them you will know that things well done are always the best.

We look for the typicity and true expression of the terroir that is reflected in our wines. The wine of Lar de Maía is distinguished by its eco-friendly production. Throughout the production process an ecological philosophy has been followed. It is made from grapes of organic farming, respecting the environment and maintaining soil fertility through good management of natural resources. We are located in Castilla y León (Spain) and we belong to the D.O. Vino de la Tierra de Castilla y León. Our wines are mainly produced with the native grape variety from OLD VINEYARDS (80-100 years old): "TEMPRANILLO" and "GARNACHA".
